

Directions for UVM's Online DMV form

This form should be completed by any volunteer that plans to drive during a 4-H event. Informal arrangements made between families to carpool to a 4-H club meeting or event do not constitute driving for a 4-H event. Driving during a 4-H event or for a field trip, between program locations, or whenever driving of youth is arranged by a volunteer, is considered driving for an official 4-H event. In these circumstances, all volunteers and chaperones driving should have submitted the Vermont DMV Record Request and Verification Authorization form and completed a motor vehicle record check. When completing this form, volunteers and chaperones should contact their educator at least 3 weeks prior to their need to drive during a 4-H event to provide ample time for the driver's checks to be submitted and approved. Below are directions for completing UVM's Online DMV Form.
