## **Other Business:**

Patti Westburg did an update on the upcoming Plant sale on June 7, 2025 from 9:00 a.m. – 12:00 at the park behind the Godnick Center. There have been some major changes to the park. The four-way cement walkway has been removed. There's a very large drainage system there which is not complete yet, behind the covered pavilion. We will have to change the layout of our plant sale. There are paved pathways. We will have to use some of them as there will be no grass planted by the sale.

We will be putting a notice out the end of March about digs and pots. We have two lined up so far. If you would like to host one, email Jerri or I. I have pots and premixed soil at my house, if you would like to come pick them up, if you wish to donate plants to the sale. We must use the sterilized soil. We are being selective about the variety, so please check with us before you dig them up. We have plenty of pink peonies. If you have any other color that you would like to donate, we would like them. We have quite a few Phlox from the fall that have been wintered over. Again, this year we will not be accepting any plants for the sale if you have had or have Asian jumping worms.

Tonight's speaker was Jeanne Corbett and the topic and workshop was Starting Flowers and Vegetables in gallon milk jugs.

Next meeting will be April 21, 2015. Meeting was adjourned at 6:45 p.m.
